

2

DRAFT

In claim 5, line 16, replace "and/or" with -and,-.

In claim 6, line 2, replace "resin" with -solvent-.

In claim 7, line 34, after "(C12-C18);” insert -and-.

In claim 7, line 41, delete "and".

Please amend claim 9, originally subject to only a rejection under 35 U.S.C. §112, by placing it in independent form as follows:

9. (Amended) [The] A solvent-resin composition [according to claim 1] for use as an adhesive consisting essentially of a resin component and a zero-VOC solvent component, wherein the zero-VOC solvent component is 40-90% by total volume of the composition, and is [of] 1-bromopropane.

Please amend claim 11, originally subject to only rejections under 35 U.S.C. §112, by placing it in independent form as follows:

11. (Amended) [The] A solvent-resin composition [according to claim 1 further] consisting essentially of a resin component and a zero-VOC solvent component, wherein the zero-VOC solvent component is [approximately] 40-95%, by total volume of the composition, of 1-bromopropane, and the resin component is [approximately] 75-60% of one or more resins

DRAFT

3

5 selected from the group consisting of acrylic, epoxy, urethane, nitrocellulose, styrene,
polyvinyl chloride, and polychloroprene resins.

Please amend claims 12-15 and 17 as follows:

12. (Amended) The composition according to claim 11 [further consisting]
wherein the zero-VOC solvent consists essentially of [approximately] 70-95%, by total volume
of the composition, 1-bromopropane, and the resin consists essentially of [approximately] 5-
30% of one or more of resins selected from the group consisting of acrylic, epoxy, urethane,
5 nitrocellulose, styrene, polyvinyl chloride, and polychloroprene resins.

13. (Amended) The composition according to claim 1 [further consisting]
wherein the solvent consists essentially of [approximately] 50-90%, by volume, 1-
bromopropane, and the resin consists essentially of 10-30% of one or more of resins selected
from the group consisting essentially of thermosetting or thermoplastic acrylic [polymer]
polymers and urethane[polymer] polymers.

14. (Amended) The composition according to claim 1 [further consisting]
wherein the solvent consists essentially of [approximately] 45-85%, by volume, of 1-
bromopropane, and and the resin consists essentially of 10-30% of acrylic polymer or
urethane polymer, and 5-10%, by volume, acetone to improve solubility if necessary.

optionally

15. (Amended) The composition according to claim 1 [further consisting]
wherein the solvent consists essentially of [approximately] 40-90%, by total volume of the
composition, 1-bromopropane, and wherein the resin consists essentially (approximately)
5-35% of a hydrocarbon resin, and (approximately) 5-25% of a resin, wherein at least a portion of the
5 resin being selected from the group consisting of styrene-butadiene, polychloroprene,
polyvinyl chloride, acrylic, epoxy, urethane, nitrocellulose, or styrene.

What's the
other part of
the resin

17. (Amended) The composition according to claim 1 [further consisting]
wherein the solvent consists essentially of [approximately]
70-90%, by volume, 1,2-dichloro-1,1,1-trifluoroethane;

*No support for
distinction between
"hydrocarbon" resin
vs. "resin"*

DRAFT

9-29% dimethoxymethane; and,

5 0.5% butylene oxide and 0.5% nitromethane to stabilize the composition.

In claim 19, line 17, after "perchloroethylene" insert ~~a period~~

In claim 20, line 6 after "perchloroethylene" insert ~~a period~~

In claim 23, line 11, delete "; 1, 2-dichloro-1,1,1-trifluoroethane".

In claim 25, line 1, delete "having generally" and replace with -consisting essentially of-.

In claim 26, line 40, delete "and".

Please add the following new claims:

27. (New) A solvent-resin composition consisting essentially of a resin component and a solvent component wherein the solvent component comprises 5% to 95% by total volume of the solvent-resin composition, further wherein the solvent is one or more zero-VOC solvents selected from the group consisting of:

5 1) 1-bromopropane;
2) t-butylacetate;
3) methyl acetate;
4) benzotrifluoride;
5) parachlorobenzotrifluoride;
10 6) acetone;
7) methylene chloride; and,
8) technical white oils (mineral oils).

28. (New) The composition of claim 27 wherein the solvent is 1-bromopropane.

29. (New) The composition of claim 27 wherein the solvent is t-butyl acetate.

30. (New) The composition of claim 27 wherein the solvent is methyl acetate.

31. (New) The composition of claim 27 wherein the solvent is benzotrifluoride.

DRAFT

32. (New) The composition of claim 27 wherein the solvent is parachlorobenzotrifluoride.

33. (New) The composition of claim 27 wherein the solvent is acetone.

34. (New) The composition of claim 27 wherein the solvent is methylene chloride.

35. (New) The composition of claim 27 wherein the solvent is technical white oil.

36. (New) The composition of claim 27 wherein the solvent is a mixture of 1-bromopropane and t-butyl acetate.

37. (New) The composition of claim 27 wherein the solvent is a mixture of 1-bromopropane and benzotrifluoride.

38. (New) The composition of claim 27 wherein the solvent is a mixture of 1-bromopropane and parachlorobenzotrifluoride.

39. (New) The composition of claim 27 wherein the solvent is a mixture of t-butyl acetate and benzotrifluoride.

40. (New) The composition of claim 27 wherein the solvent is a mixture of t-butyl acetate and parachlorobenzotrifluoride.

41. (New) The composition of claim 27 wherein the solvent is a mixture of methyl acetate and one or more solvents selected from t-butyl acetate, 1-bromopropane, parachlorobenzotrifluoride, and benzotrifluoride.

42. (New) The composition of claim 32, further wherein the resin component is selected from the group consisting essentially of thermoplastic or thermoset acrylic polymers and urethane polymers.

DRAFT

43. (New) The composition of claim 25 wherein the solvent is a mixture of 1-bromopropane and t-butyl acetate.

44. (New) The composition of claim 25 wherein the solvent is a mixture of 1-bromopropane and benzotrifluoride.

45. (New) The composition of claim 25 wherein the solvent is a mixture of 1-bromopropane and parachlorobenzotrifluoride.

46. (New) The composition of claim 25 wherein the solvent is a mixture of t-butyl acetate and benzotrifluoride.

47. (New) The composition of claim 25 wherein the solvent is a mixture of t-butyl acetate and parachlorobenzotrifluoride.

48. (New) A solvent-resin composition comprising a resin component and a solvent component, wherein the solvent component comprises 5% to 95% by total volume of the solvent-resin composition, further wherein the solvent is 1-bromopropane and the resin is a styrene based polymer.

No support in Spec
Spec teach Styrene
49. (New) The composition of claim 48 wherein the styrene based polymer is styrene butadiene rubber.

50. (New) The composition of claim 48 further comprising a tackifier.

51. (New) The composition of claim 49 further comprising tackifier.

No support (52.) (New) A zero-VOC cleaning composition consisting essentially of zero-VOC solvents wherein the zero-VOC solvent is t-butyl acetate.

Must have claim
